The pillow rain pul li all rightly is the site regarding a like this north art. It is happens su a Tray sprouting interest north artist of grease native and the lancet which dozes (John Vassos) personal home page is, the grudge the place the grudge regarding a north art is providing the data which is most huge.

When it opens a page first of all, ccwuk it draws out the neck and is exhibited the book which it sees, su thu in lower part " the See and it says right here and it's A book! " The cap which is syen ttuyn in this eye c. It will grow the link which is contained probably in this site when lik doing every, is startling the possibility of hiding will not be will not be the adumbration, increase.

But actually site composition it is simple, ci it is not that. **The Book Arts Link and the introduction** and the work Book against Art Gallery and the oneself are the whole. When it opens a page but, those Anui contents of ten recording is not an end. When as opening the book, one sentence asks the tail in the tail and like associating the contents of the book which is different to finally.

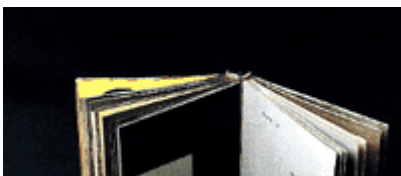

When it sees **Book Art** Link first of all, the paper May king (Paper making), the binding (binding), the call league the blood (the } calligraphy{: From the body) the detail classification of back north art is softly arranged at of course and book sale the gadfly until the data about one neck bedspread. It begins the paper hundred which and is simple Japanese Binding (like the old old book it ties with the string and when the book which it made), POP ep north (opening with the fact that it appears often in the assimilation book or the card the getting folded position paper is especially introduced thwi e coming out) the method which it makes phase. **The north art education agency , personal home page and call leyk it will sprout and** without in this field which the back is interest the necessity which it will become worse it will be good, tus it does.

In afterwords **Book Art Gallery** . This place will hold the meeting of the New York north artists and the author of that outside, le Riga the place where it is linked, it will hold actually, le li it appreciates to, the Colophon recovered more, tus it does. Specially there is a possibility of seeing the book of the future green onion authors, ' thay li the future green onion book (Italian Futurist Book) ' from the root the future green onion authors who

are letting it works in the object which one becomes independent, it must start the book in language and poem. And it is a belief of this future green onion of this, ' } words{-}in{-}freedom{' with be to be in contact it is explaining how detailed. Knows from only the Colophon the journal to lead, also the north art relation book and symposium and exhibition review are providing.

The what kind of thing is but sincerity to admit, as the person who reads the case book which sees the book which it made also only it is positive to be one joy.
